

ML SERIES

MASTERLINE PRESSURE LUBRICATED
AIR COMPRESSORS 5-30HP

SETTING THE NEW STANDARD

HEAVY-DUTY PERFORMANCE

Masterline is the most robust, heavy-duty reciprocating air compressor lineup available. The perfect combination of quality components and efficient design make the ML Series rugged, affordable and smart. Because every model is built tough to last a lifetime in demanding working conditions, the ML Series is an outstanding alternative to splash-lubricated reciprocating compressors and small rotary compressors. Choose higher quality. Choose superior durability. Choose ML Series pressure lubricated air compressors.

ML SERIES FEATURES AT A GLANCE

CENTRO-RING PRESSURE LUBRICATION

Patented FS-Curtis design.

- Proprietary technology is an FS-Curtis exclusive
- Supplies pressurized oil internally to all bearings and critical wear surfaces through the rifle-drilled crankshaft and connecting rods
- Helps ensure maximum uptime and increase service life

100% CAST-IRON CYLINDERS, CYLINDER HEADS, CONNECTING RODS, AND CRANKSHAFT

All cast-iron where it counts for longer life with less maintenance.

- Some pumps claim 100% cast-iron yet still have aluminum cylinders, cylinder heads, connecting rods and crankshafts — not FS-Curtis
- Ductile cast-iron crankshaft and connecting rods are stronger, more corrosion-resistant and less likely to break

- Slow-turning pump increases pump life
- Rugged parts and construction for industrial performance

QUALITY COMPONENTS

Built for 100% continuous duty.

- Industry-leading stainless-steel valve assemblies for increased airflow and reliability
- Oversized tapered main roller bearings to ensure long life
- Premium finned intercooler maximizes heat dissipation
- Metal intake filter housing is superior to plastic
- Heavy-duty stamped-steel belt guard
- Suction valve head unloaders for continuous running air compressors

TECHNICAL DATA

STANDARD FEATURES	STANDARD (Simplex/Duplex)	ULTRAPACK (Simplex/Duplex)
Patented Centro-Ring pressure lubrication system	.	.
100% cast-iron— Cylinders, cylinder heads, connecting rods	.	.
Factory oil filled	.	.
Magnetic motor starter (Simplex)	.	.
Alternater control panel complete with magnetic starters (Duplex)	.	.
NEMA-designed electric motor	.	.
Automatic start/stop controls	.	.
ASME-approved air receiver	.	.
Manual condensate tank drain valve	.	.
Dial read-out pressure gauge	.	.
U.L. -approved pressure switch	.	.
ASME-approved safety valve	.	.
ASME-approved discharge valve	.	.
Metal intake filter/silencers	.	.
Dynamically balanced flywheel	.	.
OSHA-approved totally enclosed metal belt guard	.	.
Dual control (10-30HP Simplex)	o	.
Air-cooled aftercooler	o	.
Low oil level shutdown	o	.
Automatic tank drain	o	.
Tank isolator pads	o	.

THE CENTRO-RING PRESSURE LUBRICATION ADVANTAGE

When you need continuous duty, the ML Series delivers. Only FS-Curtis offers the unique Centro-Ring lubrication system that extends the life of the compressor. Centro-Ring lubrication is superior to splash-lubricated systems because it supplies pressurized oil internally to all bearings and critical wear surfaces through the rifle-drilled crankshaft and connecting rods, ensuring that all critical components are properly lubricated. That means an air compressor with Centro-Ring lubrication will last significantly longer than a similar splash-lubricated compressor. It's just another reason why the FS-Curtis ML Series is the most trusted and dependable line available.

UltraPack DELIVERS

There's no better compressor value than an FS-Curtis UltraPack. As you can see, you'll get every top-quality FS-Curtis feature. Plus, only UltraPack purchases come with a 5-year UltraShield warranty.

THE CONFIGURATION YOU NEED

ML Series compressors aren't just durable. They're also versatile, with a wide range of available configurations. No matter what your application, there's a Masterline compressor just right for your needs. Be sure to speak with your FS-Curtis distributor to learn about the many Masterline options available to you.

SIMPLEX

Simplex compressors are well suited for common applications where only one compressor is needed.

- Magnetic motor starter
- Manual tank drain
- Oil sight glass
- Horizontal or vertical tank configurations available
- Factory oil filled

DUPLEX

Duplex compressors are ideal when there are varying demand levels during operation. By alternating demand across two pumps, a duplex compressor also delivers longer pump life. The redundant pumps ensure you'll always have air, eliminating maintenance downtime.

- Alternator control panel comes mounted with magnetic motor starters and thermal overload protection
- Compressors alternate during normal operation
- Both compressors run when system demands it
- Duplex design reduces electrical cost and eliminates downtime
- Factory oil filled

ULTRAPACK

The ultimate value, an FS-Curtis UltraPack gives you a Masterline Simplex or Duplex compressor fully packaged with the most common options and accessories. You'll save money and time by getting it all in one package, and you'll be assured of increasing air quality while reducing maintenance needs. Industry-leading five year UltraShield warranty available — talk to your FS-Curtis representative for more details.

- Air-cooled aftercooler
- Magnetic motor starter (Simplex)
- Alternator panel (Duplex)
- Dual control (10-30HP Simplex)
- Low oil level shutdown
- Automatic tank drain
- Tank isolator pads
- Factory oil filled

THE PERFECT ALTERNATIVE TO SMALL ROTARY AIR COMPRESSORS

Unlike rotary screw air compressors, ML Series models can run intermittently AND 100% continuous duty. They're an ideal alternative to rotary screw air compressors in environments where a constant load isn't needed. ML Series compressors can handle more rugged, hot or dirty ambient conditions that can put a rotary screw air compressor at risk of failure and expensive repairs.
